RE: Re-registration of voters of Forrest County, the City of Hattiesburg and the City of Petal

Dear Priscilla:

Enclosed you will find a xeroxed copy of a letter received this date from the United States Department of Justice relating to the re-registration of voters of Forrest County, the City of Hattiesburg and the City of Petal.

I would suggest that the enclosed copy be made a part of your city minutes.

Although we are extremely happy that the Department of Justice has seen fit not to object to our plan for the re-registration of voters, it appears that their approval comes at such a late date that it would be impossible to commence the 90 day re-registration drive under the plan and complete it early enough not to interfere with the upcoming party primaries to be held in June of this year. Therefore, in accordance with the provisions of the plan, it will be necessary that the re-registration drive not commence until immediately following the general election to be held in November, 1986.

If you should have any further questions concerning this matter, please advise.

Sincerely,
Stone D. Barefield

FEB 19 1986

Dear Mr. Barefield:

This refers to the reregistration of voters as they affect Forrest County and the Cities of Hattiesburg and Petal in Forrest County, Mississippi, submitted to the Attorney General pursuant to Section 5 of the Voting Rights Act of 1965, as amended, 42 U.S.C. 1973c. We received the information to complete your submissions on January 28, 1986. In accordance with your request, expedited consideration has been given this submission pursuant to the Procedures for the Administration of Section 5 (28 C.F.R. 51.32).

We understand that Forrest County and the Cities of Hattiesburg and Petal will retain their current voter registration lists at the polls through the general election in November 1988, so that voters currently registered will have an opportunity to vote and to reregister at the polls even though they may not have reregistered before that time. In view of this assurance, the Attorney General does not interpose any objections to the changes in question. However, we feel a responsibility to point out that Section 5 of the Voting Rights Act expressly provides that the failure of the Attorney General to object does not bar any subsequent judicial action to enjoin the enforcement of such changes. In addition, as authorized by Section 5, the Attorney General reserves the right to reexamine this submission if additional information that would otherwise require an objection comes to his attention during the remainder of the sixty-day review period. See also 28 C.F.R. 51.48.

Sincerely,

Wm. Bradford Reynolds
Assistant Attorney General
