WHEREAS Mr. Shows stated that the cave-in problem on Dawson Cut-Off has re-occurred and that it is his recommendation that the 18" line that is down in the water bearing sand be replaced at a higher level. Mr. Shows stated that a study could be prepared to compare the cost of repairing this line as opposed to his recommendation of replacement of the line.

THEREUPON Alderman Ratliff made a motion to authorize Mr. Shows to prepare the study comparing the repair cost to the replacement cost of the 18" sewer line on Dawson Cut-Off. Alderman Scott seconded the motion.

February 29, 1988

City of Petal
Mayor & Board of Aldermen
Petal, MS 39465

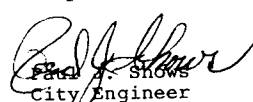

Gentlemen:

The Carterville Sewerage Pumping Station is presently operating with one pump due to a short in the wiring, causing one pump to burn out. This has caused an emergency since one pump is not sufficient to operate the system in wet, rainy weather, permitting the manholes to surcharge with raw sewage. This condition creates a health hazard for the residents of the Carterville area.

This pump should be repaired as soon as possible and put back into service. Also, the check valves in the station has deteriorated to a point where they are not performing properly and permitting sewage to flow back into the wet well. In replacing the pump the check valves should be replaced during this time.

The repair of the pumping station will benefit all residents and businesses in the Carterville Area of the City of Petal, by preventing a severe health hazard.

Very truly yours,

Paul J. Shows
City Engineer
