PROPOSAL

FOR

ENGINEERING SERVICES

FOR

CITY OF PETAL, MISSISSIPPI

**Frank Dunaway, Civil Engineer
Consulting Engineer
P. O. Box 734
Picayune, MS. 39466**

**PROPOSAL
ENGINEERING SERVICES
CITY OF PETAL, MISSISSIPPI**

In response to your request for proposals, I would like to offer the following proposal for engineering services for the City of Petal's Traffic Safety Study to be funded with funds from the Governor's Office of Highway Safety. The scope of services would include, but not necessarily be limited to, the following:

I. SCOPE OF SERVICES

I propose to provide all engineering services required to conduct a traffic safety study/inventory. The specific items to be addressed in the project will include such areas as traffic signing, signalization, pavement markings, traffic operations, pedestrian and vehicular experience, school safety, and other related aspects of the traffic system. The study will be conducted in accordance with the MUTCD Manual.

II. QUALIFICATIONS

I am a Registered Professional Engineer in the States of Mississippi, Alabama, and Louisiana, and I have a Bachelor of Science degree in Civil Engineering from the University of Alabama.

III. EXPERIENCE

I have been a Consulting Engineer to counties, cities and developers in three states for twenty-five years. Attached is a resume and a short list of my past projects.

IV. TIME OF PERFORMANCE

I can start the project as soon as a Notice to Proceed is executed, and the project will be completed within twelve months.

Telephone: 601-798-1978

EDUCATION:

Bachelor of Science, 1961, Civil Engineering, University of Alabama

SUMMARY OF QUALIFICATIONS:

I am a registered Professional Engineer in the States of Mississippi, Alabama, and Louisiana with more than 30 years experience in all phases of the engineering disciplines required for this project. I have an extensive background in the analyses of infrastructure, the prioritizing of projects, preparation of requests for proposals, negotiations of contracts, design and construction supervision of water, sewer, streets, drainage, traffic studies and recreation projects. My experience is predominantly Community Development Block Grant-related (CDBG) projects, as detailed in the "Previous Experience" section below.

As a former City Engineer and Urban Renewal Director for ten years for the City of Picayune, MS., I have identified, scoped, and specified Community Development projects, including development and advertisement of RFPs. I have evaluated proposals in response to these RFPs, selected qualified offerers and administered the resulting contracts.

Finally, as a long time resident of the City of Biloxi, I am intimately familiar with the architecture and substructure of the area included in the scope of work, as well as the surrounding area and supporting substructure.

PREVIOUS EXPERIENCE:

1976 - Present: Frank Dunaway, Civil Engineer

General Experience: Consultant to developers, cities, and counties in the States in which I am registered. Designed and supervised construction of water, sewer, drainage systems, street subsurface and pavement, traffic studies, and recreation projects. I have prepared analysis of proposed subdivision developments and federal projects for cities and counties throughout Mississippi, Louisiana, and Alabama, prepared cost breakdowns, prepared requests for proposals, negotiated contracts and performed contract managements and coordination.

Recent Specific Projects:

Columbia, MS. - \$400,000 Small Cities CDBG Housing Project, including topo and construction layout for low-income housing project, and a \$175,000 recreation facility. This project involved preparing requests for proposals, and subsequent contract negotiations, as well as complete design and construction supervision. Project is complete.

Smith County, MS. - \$500,000 Small Cities CDBG Sewer and Street Improvements. This project involved complete design, bid advertisements, contract negotiations and contract management. Project is complete.

Mize, MS. - \$800,000 Sewer Project funded by EPA and FmHA. This project involved complete design, bid advertisements, contract negotiations and contract management. Project is complete.

Wilkinson County, MS. - Public Improvements Project (sewer, water, streets and gas lines) - \$1,100,000 funded by CDBG and local funds. This project involved complete design, bid advertisements, contract negotiations and contract management. Project is complete.

Pike County, MS. - \$300,000 Small Cities CDBG Sewer and Street Improvements project, which involved complete design, bid advertisements, contract negotiations, and contract management. Project is complete.

Picayune, MS. -

\$300,000 Urban Systems Drainage and Street Improvements. Complete design, bid advertisements, contract negotiations, and contract management. Project is complete.

\$300,000 Urban Systems Street Improvements, including complete design, bid advertisements, contract negotiations and contract management. Project is complete.

\$1,000,000 Small Cities CDBG Sewer Improvements Project, including complete design, bid advertisements, contract negotiations and contract management. Project is complete.

\$250,000 Urban Systems Lighting Project, including complete design, bid advertisements, contract negotiations and contract management. Project is complete.

\$500,000 Small Cities CDBG Drainage Project, including complete design, bid advertisements, contract negotiations and contract management. Project is currently underway.

Traffic Study and Signing Project . Project is complete

Pearl River County, MS. - \$400,000 CDBG Sewer Improvements Project, including complete design, bid advertisement negotiations and contract management. Project is complete.

Mt. Olive, MS. - \$300,000 CDBG Emergency Jobs Bill - Drainage Improvements project, including complete design, bid advertisements, contract negotiations and contract management. Traffic Study and Signing Project funded by Governor's Highway Safety Program. Both projects are complete.

Bude, MS. - \$450,000 CDBG Emergency Jobs Bill - Drainage and Street Improvements Project; \$500,000 CDBG Sewer Project; Traffic Study and Signing Project funded by Governor's Highway Safety Program. All of these projects included complete design, bid advertisements, contract negotiations and contract management, and all projects are complete.

Georgetown, MS. - \$735,558 CDBG and EPA Sewer Treatment Facility and Collection System; Traffic Study and Signing Project funded by Governor's Highway Safety Program. Both projects included complete design, bid advertisements, contract negotiations and contract management and both are complete.

New Hebron, MS. - \$304,500 CDBG and FmHA Water Improvements and Fire Protection; Traffic Study and Signing Project funded by Governor's Highway Safety Program. Both projects included complete design, bid advertisements, contract negotiations and contract management and both are complete. \$500,000 CDBG Sewer Improvements Project which has been funded in 1995. This project will also include complete design, preparation of advertisements for bids, contract negotiations and contract management.

Gloster, MS. - Traffic Study and Signing Project funded by Governor's Highway Safety Program. Project is complete.

D'Iberville, MS. - Two-Phase Traffic Study and Signing Project funded by Governor's Highway Safety Program. Project is complete.

Centreville, MS. - Traffic Study and Signing Project funded by Governor's Highway Safety Program. Project is complete.

1966 - 1976: City of Picayune, City Engineer and Urban Renewal Director

General Experience: Full-time City Engineer in charge of all design and construction of public utilities, water, sewer, and street departments. As City Engineer and Public Works Director, I was directly responsible analyzing all of the City's public facilities and prioritizing projects for funding in each budget year. I was also responsible for all design and construction of the water, sewer, gas, drainage and streets throughout the

City, as well as preparation of requests for proposals, bid advertisements, contract negotiations and contract management for all contracts for improvements.

During this period I also worked part-time as a partner in the consulting engineering firm of Southern Engineering Company.

1964 - 1966: Oil Field Contractor

General Experience: Design and construction engineer for offshore drilling rigs, platforms, and structures. Managed dredging department.

1961 - 1964: U. S. Department of Agriculture, Soil Conservation Service, Flood Protection Division

General Experience: Supervised survey crews and inspector on earth-filled dams and drainage structures.
