(SEAL)

JEAN ISHEE
CITY CLERK

NOTICE: Monday October 9, 2006

**Rescheduling of Board Meetings
for 2006 Small Town Conference**

This year's small town conference will include a NIMS (National Incident Management System) training on Tuesday November 7th, 2006. We are aware that this falls on the same day as many municipalities board meetings.

We have been advised that a municipality may not reschedule its board meeting, however may call for a special meeting of the board on the day before (Monday) the regularly schedule board meeting to go over any business that needs to be brought up. It should be noted that the only things that can be brought up in the special board meeting are things that are on the agenda for the special board meeting.

This does NOT replace the regularly schedule board meeting. At the regularly scheduled board meeting someone (either the city clerk or deputy city clerk) must be at the meeting to record that no board meeting took place due to lack of a quorum and therefore no official action could take place. However, if a quorum is present the regularly scheduled board meeting may take place.
