Attn: Mayor & Board of Aldermen

RE: Annual Service, Inspections & Testing of Generators.

Dear Mayor & Board of Aldermen:

The City of Petal has a considerable investment in generators and equipment for back-up power to ensure that the City Water & Sewer Dept., Police Dept., Fire Dept., City Hall, and Fuel Depot can function and have communication in an emergency situation. For this equipment to operate when called upon, there must be a maintenance program in place and executed. Palmer Electric, Inc. has trained certified technicians on staff that perform all phases of generator service, maintenance, and testing. We have the tools and equipment to perform this service and have several customers with annual contracts to service and maintain their back-up power supply. We would propose to offer our services to the City of Petal as follows:

Palmer Electric, Inc. will furnish trained generator technicians to perform the following Annual Inspections, Service and Tests:

1. A "38" point inspection of the generator and engine.
2. Inspect the transfer switch and all electrical apparatuses.
3. Service engine (oil, filters, lubrication, coolant)
4. Test the operation of the generator, engine, and transfer switch.

5 Year Contract for "Annual Inspections, Service, and Tests" - \$395.00 per unit/per year.

Notes: -The above price does not include oil, filters, coolants, and lubricants.

-A written estimate will be submitted if any additional repairs needed.

Sincerely,
