Monica will not be at the City Council meeting as she is attending the MAKO Chamber Conference in Branson Missouri where she will be able to learn from industry leaders as well as network with other Chamber professionals from Missouri, Arkansas, Kansas and Oklahoma.

The evergreen tree in front of the Chamber was removed as it suffered from our winter snowstorm and the extreme cold we had in February. The plus side to this is there is a full view of the Chamber from Main Street so visitors can easily see the building and we are loving the look after it was removed.

Our plan for the Davis America Fest to be held at the City Park has been changed. Logistics were a factor as we felt that parking would be a major issue since we are expecting to have even more people in attendance this year since Sulphur is not having their 4th of July fireworks. With that said, Davis America Fest will be at Wolf Field as it has been in years past and we are excited for this event for the community of Davis America.
