Alteration or additions to existing plumbing ..... 50.00

Installation of irrigation system (metered) ..... 50.00

Installation of irrigation system (well) ..... 50.00

(2) *Commercial:*

(3) *First fixture* ..... \$50.00

Each additional fixture ..... 6.00

Alterations and additions to existing plumbing ..... 50.00

Irrigation systems same as residential ..... 50.00

(d) *Mechanical permit fees.*

(1) *Residential air conditioning and/or heating:*

Two-ton capacity or less ..... \$60.00

Each additional ton capacity or fraction thereof ..... 8.00

Additions and alterations to existing system ..... 50.00

Change-out of equipment, per unit ..... 50.00

(2) *Commercial air conditioning and/or heating:*

Five-ton capacity or less ..... \$80.00

Each additional ton capacity or fraction thereof ..... 8.00

Additions and alterations to existing system ..... 60.00

Change-out of equipment, per unit ..... 60.00

Boilers (based on BTU input):

For the first 500,000 BTU ..... 80.00

For each additional 500,000 BTU or fractional part thereof ..... 25.00

Refrigeration ..... Cost  
valuation

Underground storage tanks (fuel) ..... Cost  
valuation

Installation or removal ..... Cost  
valuation

Issuance of each permit requires notification of appropriate agencies.

Exhaust hoods ..... Cost  
valuation

(e) *Gas piping fees.*

Gas piping installation or change-out including four outlets ..... \$50.00

Each additional outlet ..... 4.00

(f) *Fire protection system fees (sprinkler, alarm, hood fire system, etc. ).*

Automatic sprinkler	Up to 10,000 square feet	\$100.00 (includes 2 inspections)
	Each additional 10,000 square feet or fraction thereof	\$20.00
Fire alarm system	Up to 10,000 square feet	\$50.00 (includes 1 inspection)
	Each additional 10,000 square feet or fraction thereof	\$10.00
Commercial hood and duct system		\$50.00
Suppression system		\$50.00 (includes 2 inspections)
On-site inspection	Up to 10,000 square feet	\$30.00 (Includes annual inspection and any additional inspections not covered above.)
	Each additional 10,000 square feet or fraction thereof	\$10.00

(g) *Moving of building or structure fees.*

For the moving of any building or structure within the city limits ..... \$250.00

Note: This fee does not include any highway, utility or roadway permits required by any other agencies.

(h) *Demolition of building or structure fees.*

For the demolition of any building or structure: \$75.00 for residential (per building); \$100.00 for commercial (per building)

All demolitions must meet the city standard policy for demolition.

Contractors must provide tipping fee receipts or verification that a state-approved landfill was used. If asbestos removal is required, permit holder must notify the Department of Environmental Protection.

(i) *Accessory structures.*

1. For state-approved manufactured structures under 400 square feet: \$50.00 for tie-down inspection.
2. For state-approved manufactured structures 401 square feet or over: As per building permit.
3. For site-built structures 150 square feet or less: \$50.00 for tie-down inspection.
4. For site-built structures 151 square feet or over: As per building permit.

(j) *Plan review fees with permit application.* This fee shall cover cost of reviewing plans for code and preparing marked documents. The amount of the plan review fee shall be as follows:

(1) *Single-family and multifamily residences, additions and related remodels (under two units):*

Construction Value	Fee
\$0.00 through \$5,000.00	\$20.00
\$5,000.01 through \$10,000.00	30.00
\$10,000.01 through \$50,000.00	50.00
\$50,000.01 through \$100,000.00	100.00
Add for each additional \$100,000.00 or a fraction thereof	50.00

(2) *Commercial and multifamily over two units, additions and related remodels:*

Construction Value	Fee
\$0.00 through \$5,000.00	\$30.00
\$5,000.01 through \$10,000.00	40.00
\$10,000.01 through \$50,000.00	60.00

\$50,000.01 through \$100,000.00	120.00
\$100,000.01 through \$200,000.00	160.00
Add for each additional \$100,000.00 or fraction thereof	60.00

When the department is requested to prepare an extra set of marked plans at the time of application, the additional fee shall be \$25.00 or \$4.00 per sheet, whichever is greater. If drawings are requested after the time of application, the additional fee shall be \$50.00 or \$4.00 per sheet, whichever is greater.

- (3) *Plan review without application:* Fee will be \$70.00 per hour.
- (4) *Utilities plan review:* Fee will be 50 percent of the building plan review fee.
- (5) *Fire plan review:* Fee will be 50 percent of the building plan review fee.
- (6) *Manufactured homes and buildings:*
  - (a) Manufactured (mobile) homes: \$75.00 (separate permits required for electrical, plumbing, mechanical).
  - (b) Manufactured (modular) buildings: Same as for stick built.
  - (c) Pre-move inspection: \$70.00 per hour with a 2-hour minimum.
- (7) *Archived plans:* A deposit of \$500.00 will be required to remove archived plans from the building department for reproduction purposes.
- (k) *Paving fee.* Based on valuation as per building fee.
- (l) *Pools.*
  - (1) *In-ground:* Cost valuation with separate permits required for electrical, plumbing, mechanical and gas.
  - (2) *Aboveground:* \$75.00 with separate permits required for electrical, plumbing, mechanical and gas.
- (m) *Roofing fee.* Based on valuation as per building fee with a minimum fee of \$75.00.
- (n) *Reinspection fee.* A reinspection fee shall be charged at \$25.00 per violation. No reinspection will be conducted until the fee is paid. A second reinspection for the same violation shall be charged at \$100.00.
- (o) *Returned checks.* All returned checks will be paid in cash with a \$25.00 service charge added for checks up to \$50.00; a \$30.00 service charge for checks between \$51.00 and \$300.00; and a \$40.00 service charge for checks over \$300.00. A stop work order will be placed on the job until these fees are paid.
- (p) *Fees not covered will be determined by the chief building official.*
- (q) *Late penalty.* Where work for which a permit is required by the city is started or proceeded with prior to obtaining the permit, the fees specified in this schedule shall be doubled, but the payment of such double fee shall not relieve any person from fully complying with the requirements of the Code in execution of the work or from any other penalties prescribed in the Code.

(Ord. No. 07-11, § I, 5-24-2007; Ord. No. 13-41, § I, 9-26-2013)

(d) Non-pay collection trip fee in lieu of disconnection ..... \$17.00

Formatted: Indent: Left: 0.33"

Formatted: Indent: Left: 0.31", Hanging: 0.31"

(e) Turn on fee: \$30.00

(f) Transfer of service (change of account/service is not interrupted) ..... \$20.00

(g) Fire flow test: Copies of existing fire flow tests conducted within the last three years and within 1000 linear feet within the project site are provided for free. If a new fire flow test is requested the fee is \$250.

(h) Meter accuracy test: First test is free, subsequent tests within 12 months are \$65.00 for meters up to two inches in size. Meters larger than two inches will be charge actual cost of accuracy test.

(i) Repair fee (8:30 am to 4:00 pm): \$65.00 (1 man) and \$114.00 (2 men)

Repair fee after hours : \$98.00 (1 man) and \$171.00 (2 men)

(j) Leak Adjustment: The Palatka Gas Authority is hereby authorized to make adjustments to water bills resulting from involuntary use of water due to leaks in water service lines or defective plumbing issues. Additional approval by City Finance Director is required for any adjustments over \$300. Unusually high-water usage is defined where the customer's bill exceeds the average monthly consumption for the previous 12 months by a minimum of 10,000 gallons.

Customers who experience unusually high-water usage with a corresponding spike in their monthly water bill may be considered for a billing adjustment after completing the appropriate form titled "Leak Adjustment Request Form" within 30 days after (1) notification of possible leak concern by Palatka Gas Authority OR (2) the customer has detected an issue and has repaired it. An adjustment is available no more than once in a 12-month period per customer account. All customers requesting a billing adjustment are required to be current on all accounts.

To apply for an adjustment, the customer must submit a copy of the repair invoice/payment receipt from company performing the work. The repair invoice/payment receipt should include the address, date and nature of the work. If self-repaired, the customer must provide a brief written explanation of the repairs performed and provide copies of invoice/receipt for repair parts. If repairs have not been completed, no adjustment will be made. The customer's prior average consumption usage over a period of 12 months will be compared to customer's usage during the unexplained high-water usage period to determine excessive water usage to be adjusted. For customers with less than 12 months water usage, staff will extrapolate 12 months of usage. The adjustment will be applied to the highest single month's usage during the unusually high usage period. Calculation for adjustment will be 50% of the difference between the customer's highest monthly usage and their average usage.

(K) Back-flow installation fee: At cost

(L) Back-flow inspection fee: At Cost

  - (3) Two-inch tap ..... ~~1,850.00~~2,600
  - (4) Tap larger than two inches: ~~\$1,850.00~~ { *Actual Cosst:* Tap will be made by certified contractor at their expense. Meter shall meet city specifications. }
- (b) *Reserved.*
- (c) *Line charge.* The line charge shall be in the amount of actual cost incurred by the city in the installation of such line.

(Ord. No. 07-11, § I, 5-24-2007; Ord. No. 07-23, § 8.12, 12-17-2007; Ord. No. 12-40, § 1b., 9-27-2012, eff. 10-1-2012)

### § 86-312. Water deposit and miscellaneous fees.

Formatted: Highlight

#### (1) Residential service:

a. Inside city—minimum ..... ~~\$190.00~~210.00\*

Formatted: Highlight

Inside city—maximum ..... ~~290.00~~310.00\*

Formatted: Highlight

b. Outside city—minimum ..... ~~215.00~~230.00\*

Formatted: Highlight

Outside city—maximum ..... ~~315.00~~330.00\*

Formatted: Highlight

\* If the current deposit on hand is below the maximum amount stated above and the account is suspended or disconnected for nonpayment, there shall be an additional \$50.00 charge added to the customer's account. This charge shall be applied to the deposit on hand until the deposit on hand reaches the maximum amount stated above.

#### (2) Nonresidential service:

a. Three-quarter-inch connections—minimum: ~~\$300.00~~320.00 or average of two and one-half months' estimated bills, whichever is greater\*

Three-quarter-inch connections—maximum: Average of past four months' bills\*

b. One inch or larger connections—minimum: Average of two and one-half months' estimated bills\*

One inch or larger connections—maximum: Average of past four months' bills\*

\* If the current deposit on hand is below the maximum amount stated above and the account is suspended or disconnected for nonpayment, there shall be an additional charge equal to one-half of the past months' bill added to the customer's account. This charge shall be applied to the deposit on hand until the deposit on hand reaches the maximum amount stated above.

(3) Irrigation service:

- a. Inside city—minimum: ~~\$150.00~~160.00 or average of two and one-half months' estimated bills, whichever is greater\*

Inside city—maximum: Average of past four months' bills\*

- b. Outside city—minimum: ~~\$200.00~~213.00 or average of two and one-half months' estimated bills, whichever is greater\*

Outside city—maximum: Average of past four months' bills\*

\* If the current deposit on hand is below the maximum amount stated above and the account is suspended or disconnected for nonpayment, there shall be an additional charge equal to one-half of the past months' bill added to the customer's account. This charge shall be applied to the deposit on hand until the deposit on hand reaches the maximum amount stated above.

(4) Service charges:Meter accuracy tests:

- a. Transfer of service (one location to another) ..... \$42.00

- ba. Meter accuracy test:Meters up to two inches --, First test is free, subsequent tests within 12 months are \$50.00, for meters up to two inches in size.

- b. Meters larger than two inches will be charged actual cost of accuracy test.

## Sewer Rates and Charges

### § 86-342. Sewer connection charges.

All persons desiring new sewer service connections to the city sewer mains shall pay to the city the following charges for sewer tap connections to all sewers, both main and lateral, of the city:

- (1) *Connection fee*: ~~\$2,000~~  
~~When a three-fourths-inch water tap or less is used, there shall be a sewer tap fee of \$700.00.~~  
~~When a one-inch water tap is used, there shall be a sewer tap charge of \$750.00.~~  
~~When a two-inch water tap is used, there shall be a sewer tap charge of \$950.00.~~
- (2) *Line charge*. The line charge shall be equal to the actual cost to the city for installation of any sewer line necessary to connect the new service location to the existing city sewer, including installation of any necessary pumping station.
- (3) ~~Reserved. Water pollution control charge. The water pollution control charge shall be \$15.00 for each plumbing fixture, as defined by the Standard Plumbing Code.~~  
~~When a three-fourths-inch water tap is used, \$250.00~~  
~~When a one-inch water tap is used, \$300.00~~  
~~When a two-inch water tap is used, \$500.00~~
- (4) *Reserved.*
- (5) *Reserved.*
- (6) Fees incurred for work not covered above shall be determined by the utilities superintendent.

(Ord. No. 07-11, § I, 5-24-2007; Ord. No. 07-23, § 8.12, 11-15-2007; [Ord. No. 17-21, § IV, 9-28-2017](#).)

### § 86-343. Reconnection fee for sewer service customers outside city ..... Actual cost

( [Ord. No. 17-21, § IV, 9-28-2017](#) )

## **EXHIBIT 2**

---

### Chapter 50 – PARKS AND RECREATION

#### Sec. 50-141. - Activities requiring special permit.

Any person or group desiring to use any park or portion thereof for any special or organized purpose, or for the purpose of assembly, or for any purpose or function from which the general public is to be excluded, or to use any park or portion thereof during times when such use is not otherwise permitted, or for purposes not otherwise permitted, shall first obtain a permit therefor from the city manager or designee.

(Code 1981, § 13½-86)

#### Sec. 50-142. - Approval ~~by city manager.~~

No permit required by this division shall be issued until the issuance thereof has been approved by the city manager or designee.

(Code 1981, § 13½-87)

#### Sec. 50-144. - Standards for issuance.

The city manager or designee shall authorize the issuance of a permit under this division upon a finding that:

- (1) The proposed activity or use of the park will not unreasonably interfere with or detract from the general public enjoyment of the park.
- (2) The proposed activity and use will not unreasonably interfere with or detract from the promotion of public health, welfare, safety and recreation.
- (3) The proposed activity or use is not reasonably anticipated to incite violence, crime or disorderly conduct.
- (4) The proposed activity will not entail unusual, extraordinary or burdensome expense or police operation by the city, or that the applicant will defray any extraordinary expense which will be incurred by the city.
- (5) The facilities desired have not been reserved for other use at the day and hour required in the application.

(Code 1981, § 13½-89)

### Chapter 66 - SOLID WASTE<sup>(u)</sup>

#### Sec. 66-1. - Disposal of garbage generally.

It shall be unlawful to dispose of any garbage in any manner, except as provided in this chapter.

(Code 1981, § 19-16)

Sec. 66-2. - Residential garbage containers.

- (a) *Generally; deposit.* The city will provide garbage containers for each residential dwelling or residence of a type and capacity as determined by the city manager. Each container will be numbered to correspond with the resident or dwelling unit using the container. Each user shall make a deposit with the city in an amount as set out in appendix A of this Code, as amended from time to time.
- (b) *Residential garbage containers; placement at curb.* All garbage containers shall be placed near the curblin by each user by 6:00 a.m. on the user's collection day and removed from the curblin by sunset on the user's collection day. At all other times all garbage containers shall be placed on the premises of the user and away from the streets.
- (c) *Cover.* Each container will be equipped with a cover which fits closely over the top to prevent the entrance of insects and rainwater. Each such garbage container shall be kept securely covered at all times, except when being filled or emptied.

(Code 1981, § 19-17; Ord. No. 02-28, § 1, 10-10-2002; [Ord. No. 17-21, § 1, 9-28-2017](#) )

Sec. 66-3. - Commercial and non-residential garbage containers.

- (a) Each store, hotel, restaurant or other place of business located within the corporate limits of the city shall be equipped with such garbage container or receptacle as may from time to time be necessary to take care of the accumulation of garbage; provided, however, that no 55-gallon drums shall be used to comply with this section. The maximum container or receptacle size allowed is 40 gallons.
- (b) Commercial and non-residential accounts shall be charged a container fee as set out in appendix A. ~~containers furnished by the city will have a drop-off charge of one-half the actual cost of the container.~~ In addition, a fee as set out in appendix A to this Code, as amended from time to time, will be charged for picking up and cleaning such containers.
- (c) Where containers are shared by more than one customer, the charges set out in this section will be prorated among them.

(Code 1981, § 19-18)

Sec. 66-4. - Special pickups; dogs or other animals hindering collectors; placing waste on parkways.

All users of garbage collection services from the city, both residential and commercial, shall comply with the following provisions:

- (1) *Bulk waste items.* Special collection of bulk waste items which are too large to be disposed of in the city supplied container shall be handled by appointment only and shall include a special fee as set out in appendix A to this Code, as amended from time to time. The city shall not collect tires, construction debris or hazardous waste. Disposal of such waste is the responsibility of the property owner. All waste generated by a contractor must be disposed of by the contractor in accordance with City Code, including tree contractors.
- (2) *Storage of trash at commercial establishments; placement of yard waste.* All accumulations of trash, other than garbage, in the commercial district shall be collected and placed in a receptacle at the rear of such commercial establishment and at a place easily accessible to the garbage collector and shall be covered at all times in order that trash may not escape therefrom. In the residential district, garden and lawn trash shall be collected and placed on the parkways of the streets in front of the places of residence in order to facilitate the collection by

the city. Garden and lawn trash collection not to exceed 2 cubic yards per week and shall be placed in reusable cans or brown paper lawn and leaf bags. Garden and lawn trash shall be defined as an accumulation of lawn, grass, or shrubbery cuttings or clippings and dry leaf rakings, palm fronds, small tree branches not exceeding four feet in length and four inches in diameter, bushes or shrubs, green leaf cuttings, fruits, or other matter usually created as refuse in the care of lawns and yards. Garden and lawn trash placed at the curb in plastic bags shall be considered bulk waste and charged as such.

- (3) *Dogs or other animals hindering collectors.* Refuse, trash and garbage will not be collected when dogs or other animals hinder or endanger the garbage collectors.
- (4) *Placing waste on parkways.* Except for garden and lawn trash and except for covered garbage containers as set out in section 66-2, it shall be unlawful for any person to place on the parkways of any city street any refuse, trash or garbage, including concrete blocks, engine parts and the like, and old and discarded furniture, household furnishings and appliances, including hot water heaters. Persons violating any of the provisions of this subsection shall be deemed guilty of a violation of this Code and shall, upon conviction thereof, be subject to punishment as provided in section 1-10. In any action taken in connection with the enforcement of this section, proof that any of the forbidden items mentioned in this subsection was located on the parkways of any city street in violation of this section, together with proof of the ownership or control of the property adjoining the parkway, shall constitute in evidence a prima facie presumption that the person who owns or controls the adjoining property was the person who placed those forbidden items on the parkway in violation of this section.

(Code 1981, § 19-19; [Ord. No. 17-21, § 1, 9-28-2017](#).)

## Chapter 86 – Utilities

### DIVISION 3. - CROSS CONNECTION CONTROL

Sec. 86-85. - General policy; backflow prevention requirements; enforcement.

The City of Palatka Cross Connection Control Program shall be established and amended by resolution. The Water Distribution Superintendent shall be responsible for keeping and enforcing the program.

- ~~(a) — *General policy.* No water service connection to any premises shall be installed or maintained by the water purveyor unless the water supply is protected as required by state laws and regulations and this division. Service of water to any premises shall be discontinued by the water purveyor if a backflow prevention assembly required by this division is not installed, tested and maintained, or if it is found that a backflow prevention assembly has been removed or bypassed, or if an unprotected cross connection exists on the premises. Service will not be restored until such conditions or defects are corrected.~~
- ~~(b) — *Inspection of customer's premises.* The customer's system should be open for inspection at all reasonable times to authorized representatives of the city to determine whether cross connections or other structural or sanitary hazards, including violations of this division, exist. When such a condition becomes known, the water distribution superintendent shall deny or immediately discontinue service to the premises by providing for a physical break in the service line until the customer has corrected the conditions in conformance with state and city statutes relating to plumbing and water supplied and the regulations adopted pursuant thereto.~~

~~(c) — Backflow prevention assembly required on certain premises. An approved backflow prevention assembly shall be installed on each service line to a customer's water system at or near the property line or immediately inside the building being served, but in all cases, before the first branch line leading off the service line, wherever the following conditions exist:~~

- ~~(1) — In the case of premises having an auxiliary water supply that is not or may not be of safe bacteriological or chemical quality and that is not acceptable as an additional source by the water distribution superintendent, the public water system shall be protected against cross connection from the premises by installing an approved backflow prevention assembly in the service line, appropriate to the degree of hazard.~~
- ~~(2) — In the case of premises on which any industrial fluids or any other objectionable substances are handled in such a fashion as to create an actual or potential hazard to the public water system, the public system shall be protected against backflow from the premises by installing an approved backflow prevention assembly in the service line, appropriate to the degree of hazard. This shall include the handling of process waters and waters originating from the utility system that have been subject to deterioration in quality.~~
- ~~(3) — In the case of premises having internal cross connections that cannot be permanently corrected and controlled, or intricate plumbing and piping arrangements or where entry to all portions of the premises is not readily accessible for inspection purposes, making it impracticable or impossible to ascertain whether or not dangerous cross connections exist, the public water system shall be protected against backflow from the premises by installing an approved backflow prevention assembly in the service line.~~

~~(d) — Type of protective assembly required. The type of protective assembly required under subsections (c)(1), (c)(2) and (c)(3) of this section shall depend upon the degree of hazard that exists as follows:~~

- ~~(1) — In the case of any premises where there is an auxiliary water supply as stated in subsection (c)(1) of this section and it is not subject to any of the rules in subsections (d)(2) through (6) of this section, the public water system shall be protected by an approved air gap separation or an approved reduced pressure principle backflow prevention assembly.~~
- ~~(2) — In the case of any premises where there is water or a substance that would be objectionable but not hazardous to health if introduced into the public water system, the public water system shall be protected by an approved double checkvalve assembly.~~
- ~~(3) — In the case of any premises where there is any material dangerous to health that is handled in such a fashion as to create an actual or potential hazard to the public water system, the public water system shall be protected by an approved air gap separation or an approved reduced pressure principle backflow prevention assembly. Examples of premises where these conditions will exist include sewage treatment plants, sewage pumping stations, chemical manufacturing plants, hospitals, mortuaries and plating plants.~~
- ~~(4) — In the case of any premises where there are uncontrolled cross connections, either actual or potential, the public water system shall be protected by an approved air gap separation or an approved reduced pressure principle backflow prevention assembly at the service connection.~~
- ~~(5) — In the case of any premises where, because of security requirements or other prohibitions or restrictions, it is impossible or impractical to make a complete in-plant cross connection survey, the public water system shall be protected against backflow from the premises by either an approved air gap separation or an approved reduced pressure principle backflow prevention assembly on each service to the premises.~~
- ~~(6) — In the case of any premises where, in the opinion of the water distribution superintendent, an undue health threat is posed because of the presence of extremely toxic substances, the water distribution superintendent may require an air gap at the service connection to protect the public water system. This requirement will be at the discretion of the water distribution superintendent and is dependent on the degree of hazard.~~

~~(e) — Approved backflow prevention assemblies.~~

- ~~(1) Any backflow prevention assembly required in this section shall be a model and size approved by the water distribution superintendent. For purposes of this section, the term "approved backflow prevention assembly" shall mean an assembly that has been manufactured in full conformance with the standards established by the American Water Works Association titled:~~
- ~~a. AWWA C510-89, Standard for Double Check Valve Backflow Prevention Assembly; and~~
- ~~b. AWWA C511-89, Standard for Reduced Pressure Principle Backflow Prevention Assembly;~~
- ~~and have met completely the laboratory and field performance specifications of the Foundation for Cross Connection Control and Hydraulic Research of the University of Southern California established by "Specification of Backflow Prevention Assemblies," section 10 of most current issue of the Manual of Cross Connection Control.~~
- ~~(2) The AWWA and FCCHR standards and specifications have been adopted by the water distribution superintendent. Final approval shall be evidenced by a certificate of approval issued by an approved testing laboratory certifying full compliance with the AWWA standards and FCCHR specifications.~~
- ~~(3) Backflow preventers that may be subjected to backpressure or backsiphonage that have been fully tested and have been granted a certificate of approval by such qualified laboratory and are listed on the laboratory's current list of approved backflow prevention assemblies may be used without further testing or qualification.~~
- ~~(f) Testing and maintenance of backflow prevention assemblies. It shall be the duty of the customer-user at any premises where backflow prevention assemblies are installed to have certified inspections and operational tests made at least once per year. In those instances where the water distribution superintendent deems the hazard to be great enough, certified inspections may be required at more frequent intervals. These inspections and tests shall be at the expense of the water user and shall be performed by the assembly manufacturer's representative, by water department personnel, or by a certified tester approved by the water distribution superintendent. It shall be the duty of the customer-user to see that these tests are made in a timely manner. The customer-user shall notify the water distribution superintendent in advance when the tests are to be undertaken so that the water distribution superintendent may witness the tests if so desired. These assemblies shall be repaired, overhauled or replaced at the expense of the customer-user whenever such assemblies are found to be defective. Records of such test, repairs and overhaul shall be kept and made available to the water distribution superintendent.~~
- ~~(g) Existing installations. All presently installed backflow prevention assemblies that do not meet the requirements of this section but were approved assemblies for the purpose described in this section at the time of installation and that have been properly maintained shall, except for the inspection and maintenance requirements under subsection (f) of this section, be excluded from the requirements of this section so long as the water distribution superintendent is assured that they will satisfactorily protect the utility system. Whenever the existing assembly is moved from the present location or requires more than minimum maintenance, or when the water distribution superintendent finds that the maintenance constitutes a hazard to health, the unit shall be replaced by an approved backflow prevention assembly meeting the requirements of this section.~~
