

**Winston-Salem/Forsyth County Utility Commission
Action Request Form**

Date: May 9, 2022

To: Chair and Members of the Utility Commission

From: Courtney Driver, Utilities Director

Commission Action Requested:

Consideration of a Resolution Approving the FY 2022-23 Water and Wastewater Operations and Capital Improvement Budgets and Requesting Adoption by the City Council.

Strategic Plan Goal Area: Financial Viability
Strategy: Identify and Communicate Financial Needs
Key Work Item: No

Summary of Information:

The following is a summary of the proposed FY 2022-23 Water and Wastewater Operations and Capital Improvement Budgets. Under this proposal, the overall budget of \$102.8 million increases by \$3,930,490 from FY 2021-22. This increase is primarily driven by escalated costs of operational supplies and services.

The proposed operating budget includes an increase in personnel expenses of \$1,527,730, or 6.38%, which includes funding for one new Senior Utilities Electrical Specialist, as well as merit increases for employees.

Supplies and services expenses increase by \$3,670,910, or 12.91%, and include increases for contracted services related to the Collection System Improvement Program, chemicals, natural gas, software licensing costs related to the new WaterSmart customer portal and Advanced Metering Infrastructure Program, and rising fuel costs. These increases are partially offset by a decrease in indirect cost allocation charges.

The proposed budget includes a transfer of \$390,560 for the Household Hazardous Waste Program, which is an increase of \$18,590 from FY 2021-22.

The total capital budget for Water and Wastewater Capital Projects in FY 2022-23 will be \$42,000,000. These appropriations will support 11 projects in total. The FY 2022-23 capital budget includes funds to address miscellaneous capital needs within the distribution and collection systems, as well as at the water and wastewater treatment plants. Projected multi-year appropriations for the six-year planning window are estimated to total \$213,250,000.

~continued~

Submitted By: Courtney Driver, P.E.
Name

Utilities Director
Department/Division

Operating revenues for FY 2022-23 are budgeted at \$127,997,720, an increase of 3.44%, which is based on the total amount of projected water and sewer revenue for FY 2022-23 and implementation of the FY 2022 Cost of Service Study recommendations.

To generate sufficient revenues to provide funding for all operating expenses and debt service coverage, the FY 2022 Cost of Service Study recommends a 4.5% revenue increase and changes in volumetric tier structures and readiness-to-serve charges to become effective July 1, 2022. The changes in tiers will result in a \$2.42 bi-monthly increase for the average 1,000 cubic feet customer.

Staff recommends approval of the proposed FY 2022-23 Water and Wastewater Operations and Capital Improvement Budgets and that they be forwarded to the City Council of the City of Winston-Salem for adoption.

**RESOLUTION APPROVING THE FY 2022-23 WATER AND WASTEWATER
OPERATIONS AND CAPITAL IMPROVEMENT BUDGETS AND REQUESTING
ADOPTION BY THE CITY COUNCIL**

WHEREAS, Winston-Salem/Forsyth County Utilities staff has prepared operations and capital improvement budgets for FY 2022-23; and

WHEREAS, the Finance Committee of the Winston-Salem/Forsyth County Utility Commission has reviewed the FY 2022-23 proposed budget and recommends approval of said budgets; and

WHEREAS, a thorough review of the water and sewer rates has been completed to take into account current needs, future capital needs, and future income as related to debt service coverage; and

WHEREAS, to continue to meet future needs and the required bond covenants, changes in tier structures, volumetric, and readiness-to-serve charges are recommended to take effect July 1, 2022, resulting in a 4.5% revenue increase and a \$2.42 bi-monthly bill increase for the average customer.

NOW, THEREFORE, BE IT RESOLVED by the Winston-Salem/Forsyth County Utility Commission, an agency of the City of Winston-Salem, upon recommendation of the Finance Committee, that the proposed FY 2022-23 Water and Wastewater Budgets are hereby approved, and the City Council is hereby requested to adopt said budgets.

BE IT FURTHER RESOLVED that the water and sewer rates as shown in the attachment are hereby adopted and effective on July 1, 2022.

PART A – WATER SYSTEM POLICY RESOLUTION

ARTICLE II. - RATES AND BILLING

Sec. 30. - Water rates—Schedule A (Inside City, Clemmons, Walkertown, Rural Hall)

Table A – 1.1: Inside City, Clemmons, Walkertown, Rural Hall Monthly Rates and Tiers						
Tier	Consumption Range (Cubic Feet)	Consumption Range (Cubic Feet)	Domestic (Rate Per 100 Cubic Feet)		Irrigation (Rate Per 100 Cubic Feet)	
1	0-300	0-400	\$2.252	\$2.335	\$3.724	\$4.000
