Future Land Use Map

FUTURE LAND USE PLAN DESIGNATION

Medium Density Residential

This land use category consists of detached single-family residential lots that range between 5,000 and 15,000 square feet. Development characteristics would include curb and gutter streets, connection to public utility systems, recreation amenities, or other facilities to serve the neighborhood. Other supporting land uses such as daycares, churches, schools, and neighborhood commercial may be appropriate if located along arterial roads. Existing high-density residential housing products such as duplexes and attached-single family are captured in this land use category. Future high-density residential may also be appropriate if it consists of housing products that are similar in character to the surrounding area. Future nonresidential and high-density residential uses located adjacent to residential should not negatively impact the surrounding area.
