Wood by-products means a substance, which is principally composed of woody materials such as stumps, logs, limbs, brush, leaves, and similar items that can be chipped or ground into smaller components.

Wood by-products recycling center means a type of agricultural processing facility in a building and/or associated land area and equipment primarily used for the processing of wood by-products into mulch, wood chips, topsoil and similar materials. On-site retail sales of the processed materials and other similar commodities such as sand, gravel and rock shall be considered an auxiliary use.

Yard means any open space on the same lot with a building or building group lying between the building or building group and the nearest lot line, unobstructed from the ground upward and unoccupied except by specific uses and structures allowed in such open space by the provisions of this chapter. On any lot which is occupied by an attached dwelling, no minimum required yard shall be occupied by any part of a vehicular travel way or parking space that is owned and maintained by a homeowner's association, condominium, or by the public.

For the purpose of this chapter, there shall be a distinction between "yard" and "minimum yard required." The minimum yard requirements set forth in this chapter represent that minimum distance which the principal building(s) shall be set back from the respective lot lines.

On a non-residential lot where a service drive is to be dedicated to the county or to the department of highways and transportation, such dedication shall not affect the applicable

minimum yard requirements. The minimum required yard shall be established from the original lot line, except in no instance shall a building be erected closer than fifteen (15) feet from the nearest street line.

In instances where future roadway improvement plans have been listed on the VDOT Primary or Secondary Road 6-year Improvement Plan, Comprehensive Plan, or are on a county approved road bond project list, for the widening, opening, or relocation of any street or highway within the county, it shall be required that the minimum yard required for any new construction be calculated based on the planned right-of-way in order to protect and preserve the right-of-way for such proposed street or highway. The zoning administrator may consider modifications to minimum front, rear, or side yards on a case by case basis in instances where it compromises the by-right development, code compliance of a lot.

Yard, front means a yard extending across the full width of a lot and lying between the front lot line and the principal building.

On a corner lot, the two (2) yards lying between the principal building and the intersecting streets shall both be deemed to be front yards.

On a through lot, the two (2) yards lying between the principal building and the two (2) or more public streets shall be deemed to be front yards and shall be controlled by the provisions for same, except as qualified in section 20-5.2.1, subdivision regulations for residential lots having reverse frontage, and except in those instances where one (1) of the public streets is an alley. On a pipestem lot or a lot abutting a pipestem driveway, any yard contiguous to the pipestem driveway shall be deemed a front yard and shall be subject to the provisions of article 6 of this chapter.

Yard, privacy means a small area contiguous to a building and enclosed on at least two (2) sides with either a wall or fence of six (6) feet minimum height.

Yard, rear means a yard extending across the full width of the lot and lying between the rear lot line of the lot and the principal building group.

Corner lots shall be considered to have two (2) fronts and are subject to front yard requirements for both fronts. Rear yard requirements shall apply to the yard opposite the shorter front street line; the remaining yard shall be considered a side yard and shall be subject to side yard requirements.

Yard, residential manufactured home park means any open space on the same lot within a manufactured home park lying between any manufactured home or group of manufactured homes or other building or building group and the nearest lot line of a residential manufactured home park parcel, unobstructed from the ground upward and unoccupied except by specific uses and structures allowed in such open space by the provisions of this chapter.

Yard, side means a yard between the side lot line of the lot and the principal building, and extending from the front yard to the rear yard, or, in the absence of either of such yards, to the front or rear lot lines, as may be.

Zoning administrator means the administrative officer designated by the board to administer the zoning ordinance and issue zoning certificates.

Note 1: Where more than one (1) office bldg. is located on a lot, the parking requirements shall be based on the gfa of each building individually and not on the total gross floor area of all buildings on the lot. For purposes of this provision, buildings connected by structures such as atriums, awnings, breezeways, carports, garages, party walls or plazas shall not be deemed to be one (1) building but rather a collection of multiple buildings depending on how many are connected in such a way.

Note 2: The shopping center off-street parking requirement set forth in the minimum required parking spaces table above shall be applicable to all uses in a shopping center, except the area occupied by theaters with more than two thousand (2,000) seats. An additional three-tenths (0.3) space shall be provided for each seat above two thousand (2,000) seats. The zoning administrator may reduce the overall required parking requirements by the percentage of gross floor area of the enclosed pedestrian walkway, excluding any area within the enclosed pedestrian walkway that is leased.

Note 3: Alternative standards may be accepted as determined by the zoning administrator based on a review of each proposal to include such factors as: the number of spaces required to accommodate employees; public use vehicles anticipated to be on-site that can be used for auxiliary parking in times of peak demand. In no instance, however shall the number

of spaces required for government office use be less than that required herein for general office use.

Note 4: The number of spaces required may be reduced by up to fifty (50) percent if the use is located within five hundred (500) feet of any public parking lot or any commercial parking lot where sufficient spaces are available by permission of the owners without charge, during the time of service to make up the additional spaces required.
