Text:

ORDINANCE _____

AN ORDINANCE relating to the Building and Construction Codes, Subtitle VI Fire Code, amending Seattle Municipal Code Section 22.602.040 to change the fee for permits related to marine terminal activities, create a separate code for wrecking yard permits, change application of a residential combustible liquid tank decommissioning permit, revise permit code numbers, and make clerical corrections.

WHEREAS as a result of a cooperative effort between the City and the regulated community, the Seattle Fire Department has initiated changes to the marine terminal regulation program to increase the level of fire and life safety at marine terminals; and

WHEREAS in order to increase the marine terminal inspection capacities of the Fire Marshal's Office, the Seattle Fire Department has recommended that regulatory fees be adjusted to allow staff and resources to be allocated for such inspections and services; Now, Therefore,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Seattle Municipal Code Section 22.602.040 and its Schedules (Ordinance 110893 2 (part), as last amended by Ordinance 118391 2), are further amended as follows:

22.602.040 Fees.

A. The fees for the following permits and inspections are established in Schedule A. See Schedule A in Table 22.602.040A.

Schedule A

- SC-2 Shaft Pressurization Examination \$ 100.00
- STP-1 Standpipe Examination \$ 100.00
- STP-2 Standpipe Examination (includes marine standpipes) \$ 100.00
- Fire Extinguisher Practical Training \$ 25.00

C. Hazardous Material Related Permits. Fees for hazardous material related permits are established in Schedule C (See Table 22.602.040C).

In some cases these fees are based on the quantity of hazardous material stored and/or handled at the site and the relative risk posed by each material.

- 1. Definitions:
 - a. "Quantity Range Number" as established in the Quantity Range Table below, is a number between 1 and 2 which is assigned to a hazard category based upon the amount of hazardous material located at the site.

QUANTITY RANGE TABLE

QUANTITY

RANGE

NUMBER

SOLIDS (Pounds)

LIQUIDS (Gallons)

GASES (Cu. Ft.)

- 1
- 1.25

- 1.5
- 1.75
- 2 0-550
- >550 - 5,500
- >5,500 - 27,500
- >27,500 - 55,000
- >55,000 0-55
- >55 - 550
- >550 - 2,750
- >2,750 - 5,500
- >5,500 0-1,000
- >1,000 - 5,000
- >5,000 - 50,000
- >50,000 - 100,000
- >100,000

b. "Assigned Risk Factor" as established below, is a number assigned to each hazard class and category of hazardous material indicating the relative hazard posed by materials in that hazard category.

Assigned Assigned

Risk Risk

Hazard Category Factor Hazard Category Factor

Aerosol products 1.3 Liquid petroleum gas 1.4

Cellulose nitrate 1.3 Magnesium 1.3

Combustible fiber 1.2 Organic peroxides

Unclassified 1.5

Combustible liquids Class I 1.4

Class II 1.2 Class II 1.3

Class III-A 1.1 Class III 1.2

Class III-B 1.1 Class IV 1.1

Assigned Assigned

Risk Risk

Flammable liquids Class 2 1.3

Class I-A 1.5 Class 1 1.2

Class I-B 1.4

Class I-C 1.3 Water-reactive materials

Class 3 1.5

Flammable solids 1.3 Class 2 1.3

Class 1 1.1

Highly toxic

liquids and solids 1.5

c. "Fixed permit cost" Ninety-eight Dollars (\$98.00) is the minimum cost for the Seattle Fire Department to issue a hazardous material permit.

d. "Base permit fee" is determined by multiplying the sum of the products of the quantity range number and assigned risk factor for each hazard class by the fixed permit cost divided by 1.1 and is represented by the following equation:

$$\text{Base permit fee} = [((Q)(R))[F/1.1]$$

Where: Q = The quantity range number.

R = The assigned risk factor.

F = The fixed permit cost (\$98.00).

Example:

XYZ Company stores five hundred (500) gallons of gasoline and two hundred (200) pounds of nitric acid. Gasoline is classified as a Class I-B flammable liquid which has an assigned risk factor of 1.4. Nitric acid is classified as a corrosive liquid and a Class 1 oxidizer, both of which have an assigned risk factor of 1.1.

$$\text{Base permit fee} = [(1.25)(1.4)\text{flammable} + (1)(1.1)\text{Class 1 oxidizer}][\$98./1.1]$$

$$\text{Base permit fee} = \$253.91$$

When a material has multiple hazards, only the hazard presented by the material that has been assigned the highest risk factor shall be considered. The base permit fee incorporates the cost of the initial site inspection plus one (1) reinspection of the facility. Any subsequent inspections will result in an additional fee based on the time charge which shall be calculated on actual costs for labor and other services.

The annual permit renewal fee will be one-half () of the original base permit fee, if the facility is found to be in compliance with the original permit conditions.

Effective January 1, 1993, those facilities which have existing hazardous materials-related permits authorized under Ordinance 116258 shall have their permits renewed at the rate of Seventy-Five Dollars (\$75.00) until the Fire Department Article 80 program inspection and inventory analysis for the facility has been performed.

In special circumstances, hazardous material permit fees may be adjusted, modified or combined. Authority to adjust, modify or combine such permit fees is limited to the Fire Chief, the Fire Marshal and the Assistant Fire Marshal.

Schedule C

Table 22.602.040C

Hazardous Materials Related Permits

One, or a combination of more than one, of the following abbreviations shall be placed before the permit code number to indicate whether the permit applies to storage, retail sales, or use of hazardous materials or is a temporary permit:

1 Fees apply to nonpreapproved applicants.

2 Fees for preapproved applicants equal one-half (1/2) of the fee identified in Table 4915.

3 Any preapproved applicant found to be in violation of permit conditions shall be removed from the preapproved applicant list and subject to nonpreapproved applicant fees and conditions.

4 Each applicant who receives a minimum of six (6) permits (Code 4915) during a six (6) month period and is found to be in compliance with all permit conditions will be considered a preapproved applicant after the six (6) month period. Applicants who obtain fewer than six (6) permits (Code 4915) during a six (6) month period will be considered a preapproved applicant only after six (6) permits have been issued and no permit violations are noted.

* Biannual Renewal Fee

D. All permits listed under subsection A of this section have a base fee which incorporates the cost of an initial site inspection and one (1) site reinspection to determine compliance with the Seattle Fire Code. Any subsequent inspections will result in a fee based on a time charge which shall be calculated on actual costs for labor and other services. Such fees shall include overtime costs only when the work performed outside normal business hours (eight a.m. (8:00(()) a.m.) to four-thirty p.m. (4:30(()) p.m.) Monday through Friday) is required by the Seattle Fire Code or is performed at the request of the owner or responsible person or permit holder.

E. Temporary permits listed under Schedule A will not be renewed on an annual basis.

F. Those permit applications which are required to be filed within time limitations specified under the Seattle Fire Code or by order of the Fire Chief, shall be subject to a late fee, if not filed within the prescribed time period. The late fee shall be calculated at 1.75 times the original permit fee.

For permits listed under Schedules A and C as renewable, renewal payments received more than thirty (30) days, but less than ninety-one (91) days, past the permit expiration date shall be subject to a late fee. The late fee shall be calculated at 1.75 times the listed renewal fee. Permit renewal payments received more than ninety (90) days past the expiration date will not be processed as a renewal and will be subject to original permit fees and the new permit application process.

G. Unless specifically stated on the permit, no temporary use permit shall be valid for a term exceeding twelve (12) months.

H. Each examination fee listed under this section shall include one (1) test and one (1) retest.

Section 2. This ordinance shall take effect and be in force thirty (30) days from and after its approval by the Mayor, but if not approved and returned by the Mayor within ten (10) days after presentation, it shall take effect as provided by Municipal Code Section 1.04.020.

Section 3. This ordinance shall take effect and be in force thirty (30) days from and after its approval by the Mayor, but if not approved and returned by the Mayor within ten (10) days after presentation, it shall take effect as provided by Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 1997, and signed by me in open session in authentication of its passage this _____ day of _____, 1997.
