Article I. Township Parks and Pathways

Sec. 22.1. - Findings and declaration of purpose.

The board of trustees finds that:

- (1) The township is a desirable place to live, work and visit in large part due to the presence of preserves, parks, trails, and recreational opportunities.
- (2) The voters of the township approved the Parks and Pathways Millage Proposal in August 2020, a .65 mill tax for ten years to provide funds to develop and maintain nature preserves, parks, trails, recreational opportunities, including a network of non-motorized pathways.
- (3) The voter approved millage requires the Board of Trustees to enact any necessary legislation to implement appropriate administrative oversight of these activities, and that administrative costs of all of the above activities shall not exceed 15% of the annually estimated revenue.
- (4) It is the intention of the township to develop and maintain nature preserves, parks, trails, recreational opportunities, including a network of non-motorized pathways as approved by the voters to provide access to open space recreation and a safe means for movement for pedestrians and cyclists throughout the township, and to enhance the-quality of life for township residents and others in the area.
- (5) It is the intention of the township to pursue additional sources of funding, such as grants or gifts, to leverage the funds made possible through the voter approved millage for nature preserves, parks, trails, and recreational opportunities, including a network of non-motorized pathways.

(6) It is the intention of the township to work as collaboratively as possible with other units of government and private organizations to develop and maintain nature preserves, parks, trails, recreational opportunities, including a network of non-motorized pathways

(7) The development and maintenance of nature preserves, parks, trails, recreational opportunities, including a network of non-motorized pathways and, when necessary, acquisition of land, not otherwise suitable or qualified for preservation by the township, and land rights as provided in this article are public purposes of the township.
