(c) Collection operation. (a) Save and except as provided in this section, collection shall not start before 7:30 a.m. or continue after 7:30 p.m. at any location. Company may request variances to this collection period provided that collections: (i) are made in a manner that does not cause or result in loud noise; and (ii) that are made at a location which will not cause the disturbance of persons occupying the premises or neighboring property must first be confirmed prior to the request. All requests for variances of times must be submitted to the city manager, or his designee, and include documentation on the hardship created by the collection operation period. Should such a collection operation variance be granted and the city receives two complaints about the collection operation in any six-month time period, the city shall verify and substantiate the factual basis for any complaints. Should the complaints be substantiated, the collection operation variance will be revoked. The frequency of collection shall be determined by each individual customer agreement.

(f) Any invoice, bill, statement, or other device intended to request remittance by the customer to the company of funds for payment of service shall include at a minimum, the company's telephone number and payment methods available to customers.

(g) All companies providing residential service or service to residential multi-family units must provide a recycling program to all customers. (c) Company must manage collection services delivered within the city to minimize the number of vehicles on city roads. Coordination between haulers and service providers is strongly encouraged to manage service vehicles on residential streets and neighborhoods.

- (6) All containers shall not be on public rights-of-way and shall be located so as to not interfere, block, obstruct or impede the normal use of any sidewalk, street, alley driveway or fire lane, or to block, obstruct or impede sight distance at street, road or alley intersections;

(7) All containers, bins, or other collection instruments must be kept free from graffiti, rust, broken and nonoperational parts and pieces, and litter in and around the area; and

Any items collected as part of a recycling program must be delivered to a facility where recovery and reuse occurs.

Should any company choose to offload or dispose of materials collected by one vehicle into another for transport to the final disposal facility, company shall make every available effort to perform such refuse transfer on property owned by the company or privately owned property where the company has an agreement with the property owner to perform such activity. In the event any transfer occurs on public land, including streets, alleys, rights-of-ways, roads, thoroughfares, avenues, parkways, expressways, or other areas designed and designated for public travel, company shall make every effort available to clean the area after completion of the transfer to insure the area is maintained at the same or better level than if the area was not used for this activity. In consideration of such benefits, costs and expenses, the company shall through the term of its contract collect an "infrastructure maintenance fee" equal to five percent of the company's gross receipts to customers within the city (exclusive of sales tax). During the implementation of this article, all bills generated by companies after December 1, 2006, shall include the infrastructure maintenance fee. The city shall provide material relating to the education and marketing efforts of the infrastructure maintenance fee as well as provide education and training to company employees to ensure a consistent message is conveyed to constituents of the City of Milton.
