Exhibit A

That Appendix A, “Unified Development Ordinance,” Article 7, “General Development Standards”, Section 7.3.H “Number of Off-Street Parking Spaces Required”, of the Code of Ordinances of the City of College Station, Texas, is hereby amended to read as follows:

“H. Number of Off-Street Parking Spaces Required.

In computing the number of parking spaces required, the following rules shall govern:

1. Parking requirements based on square footage shall be based upon the gross floor area, unless otherwise stated. Service areas such as mechanical rooms, restrooms, and closets shall be included in the calculation of "gross floor area" for determining required parking spaces;
2. Where fractional spaces result in computing required parking spaces, the required number of spaces must be increased to the nearest whole number. At least one (1) parking space must be provided unless otherwise specified in this UDO;
3. The parking space requirements for a use not specifically listed shall be the same as those for the most similar to the proposed use, as determined by the Administrator;
4. Whenever a building or use constructed or established after the effective date of this UDO is changed or enlarged in floor area, number of employees, number of dwelling units, seating capacity, or otherwise, parking requirements shall be met on the basis of the enlargement or change. Whenever a building or use existing prior to the effective date of this UDO is enlarged, the enlarged building or increased use shall then and thereafter comply with the parking requirements set forth herein;
5. At the time of construction, redevelopment, or when an addition to the number of existing bedrooms is completed, all single-family and townhouse uses shall come into compliance with the minimum off-street parking requirements. Garages that meet minimum dimensional standards may be counted towards parking requirements.
6. Where requirements are established on the basis of the number of seats, such requirements shall be based on the seating capacity as determined by the Building Official;
7. Where a manufacturing/industrial use has more than one (1) working shift of employees, parking shall be provided to accommodate overlap requirements during transition periods; and
8. The Design Review Board may waive parking space requirements in the Northgate and Wolf Pen Creek districts if the development meets the goals of the master plan for the respective district.
