ORDINANCE 2024-01

EXHIBIT C

Chapter 6.15 RESIDENTIAL PARKING PERMIT DISTRICTS

Section 6.15.010 Legislative findings.

- 1) There exists within the areas described in Section 6.15.030, heavy concentration of vehicles which are parked all day by commuters.
- 2) The presence of these vehicles causes vehicular congestion, impedes the movement of traffic, and unduly restricts entry of residents to their homes.
- 3) Such vehicular congestion creates polluted air, excessive noise, and litter.
- 4) The conditions mentioned above in subsections 1), 2), and 3) create blighted or deteriorated residential areas.
- 5) The establishment of residential permit parking districts will help preserve the character of these areas as residential areas and will preserve property values.
- 6) The establishment of residential permit parking districts will reduce motor vehicle miles traveled in the City by incentivizing commuters to carpool or to utilize forms of transportation which are less polluting per person than private passenger motor vehicles and thereby assist in conformance with national and State air quality standards.
- 7) Residential permit parking districts are necessary to promote the health, safety, and welfare of the inhabitants of the City.
