**WHEREAS**, the City of Arroyo Grande ("City") participates in the National Flood Insurance Program ("NFIP") pursuant to the National Flood Insurance Act of 1968 (the "Act"); and

**WHEREAS**, the Department of Homeland Security's Federal Emergency Management Agency ("FEMA") has prepared a Flood Insurance Study ("FIS") and has issued a Flood Insurance Rate Map ("FIRM") identifying the Special Flood Hazard Areas ("SFHAs") which are located within the City; and

**WHEREAS**, as a condition of continued eligibility in the NFIP, the City is required to have floodplain management regulations which meet or exceed the standards of Code of Federal Regulations, Title 44, Section 60.3(d) ("44 CFR 60.3(d)"); and

**WHEREAS**, on June 25, 2013, the City adopted Ordinance No. 652 amending its floodplain management regulations to comply with 44 CFR 60.3(d); and

**WHEREAS**, this Ordinance further amends the City's floodplain management regulations in order to comply with the most current NFIP standards; and

**WHEREAS**, on February 21, 2017, the Planning Commission held a duly noticed public hearing and recommended the City Council introduce an Ordinance amending the City's floodplain management regulations; and

**WHEREAS**, the City Council has held a duly noticed public hearing on March 28, 2017 and, after consideration of all testimony and all relevant evidence, has determined that the following Development Code Amendment findings can be made in the affirmative manner:

- A. The proposed revisions to Title 16 is consistent with the goals, objectives, policies and implementation measures of the General Plan, particularly the Land Use Element, and is therefore desirable to implement the provisions of the General Plan.

*The proposed Development Code Amendment is consistent with the General Plan by protecting the physical, social, and economic stability and viability of residential, commercial, industrial, public/quasi-public, and open space uses*

*within the City, by reducing or eliminating hazards to the public resulting from potentially inappropriate location, use or design of buildings and other improvements, and maintaining the City's eligibility for the National Flood Insurance Program*

- B. The proposed revisions to Title 16 will not adversely affect the public health, safety, and welfare or result in an illogical land use pattern.

*The proposed Development Code Amendment will not adversely affect the public health, safety, and welfare or result in an illogical land use pattern because the revisions will allow the City, which is unaffected by the updated flood hazard information presented in FEMA's recent Flood Insurance Study, to remain eligible for the National Flood Insurance Program, thereby protecting public health, safety, and welfare.*

- C. The proposed revisions to Title 16 are consistent with the purpose and intent of Title 16.

*The proposed Development Code Amendment is consistent with the purpose and intent of Title 16 due to the revisions being made to ensure the City remains eligible for the National Flood Insurance Program, thereby reducing or eliminating hazards to the public resulting from the potentially inappropriate location, use or design of buildings and other improvements.*

- D. The potential environmental impacts of the proposed revisions to Title 16 are insignificant, or there are overriding considerations that outweigh the potential impacts.

*The proposed Development Code Amendment is categorically exempt from environmental review by Section 15308 of the California Environmental Quality Act (CEQA) Guidelines regarding actions by regulatory agencies for protection of the environment and therefore no environmental impacts are anticipated by the proposed revisions.*
