

ORDINANCE NO. 315-843

**AN ORDINANCE OF THE BOARD OF SUPERVISORS
OF THE COUNTY OF TRINITY
AMENDING TRINITY COUNTY CODE SECTION 17.43
REGARDING COMMERCIAL CANNABIS CULTIVATION**

The Board of Supervisors of the County of Trinity, State of California, ordains as follows:

Section I:

- (1) WHEREAS, the voters of the State of California approved Proposition 215 (codified as Health and Safety Code section 11362.5 and entitled "The Compassionate Use Act of 1996").
- (2) WHEREAS, the intent of Proposition 215 was to ensure that seriously ill Californians have the right to obtain and use Cannabis for medicinal purposes where medicinal use is deemed appropriate and has been recommended by a physician, and to ensure that patients and their primary caregivers who obtain and use Cannabis for medicinal purposes upon the recommendation of a physician are not thereby subject to criminal prosecution or sanction. The Compassionate Use Act of 1996 further provides that "nothing in this section shall be construed to supersede legislation prohibiting persons from engaging in conduct that endangers others, or to condone the diversion of Cannabis for non-medicinal purposes."
- (3) WHEREAS, the State enacted SB 420 in 2004, known as the Medical Marijuana Program Act (codified as Health and Safety Code section 11362.7 et seq.) to clarify the scope of The Com- passionate Use Act of 1996, facilitate the prompt identification of qualified patients and primary caregivers, avoid unnecessary arrest and prosecution of these individuals, provide needed guidance to law enforcement officers, promote uniform and consistent application of the Com- passionate Use Act of 1996, enhance the access of patients and caregivers to medicinal Cannabis through collective, cooperative cultivation projects and to allow local governing bodies to adopt and enforce rules and regulations consistent with SB 420.
- (4) WHEREAS, on September 11, 2015, the State enacted the Medical Marijuana Regulation and Safety Act (MMRSA), which took effect January 1, 2016, and which mandated a comprehensive state licensure and regulatory framework for cultivation, manufacture, distribution, transportation, testing and dispensing of medicinal Cannabis on a commercial basis, but implementing regulations have yet to be written and state licenses will not be available until 2018. In addition, on June 27, 2016 MMRSA was amended by SB 837.
- (5) WHEREAS, previous landmark Cannabis legislation, including the Compassionate Use Act of 1996 and the Medical Marijuana Program Act, have precipitated a "green rush" where individuals have moved to Trinity County to grow Cannabis; some seeking to capitalize on ambiguities in the law, while others lack an awareness of community and environmental consciousness.
- (6) WHEREAS, since the adoption of MMRSA, numerous sources, including law enforcement, elected officials, county administrators, neighbors and Cannabis

- cultivators have reported numerous inquiries from individuals and entities, both from within and without Trinity County, who seek to expand their current cultivation operations, or start new ones.
- (7) WHEREAS, on November 8, 2016, voters approved the Adult Use of Marijuana Act (AUMA) to allow recreational use of Cannabis by adults over the age of 21.
 - (8) WHEREAS, the intent of AUMA is to allow the legal use of Cannabis for persons over the age of 21. AUMA provides that California residents are entitled to cultivate up to 6 plants indoors and for personal use.
 - (9) WHEREAS, on June 27, 2017, the State adopted SB 94, the Medicinal and Adult-Use Cannabis Regulation and Safety Act (MAUCRSA), which established a comprehensive system to control and regulate the cultivation, distribution, transport, storage, manufacturing, processing and sale of both of the following: (1) Medicinal cannabis and medicinal cannabis products for patients with valid physician's recommendations; and (2) Adult-use cannabis and adult-use cannabis products for adults 21 years of age and over.
 - (10) WHEREAS, local governments in California may restrict or completely ban commercial Cannabis activities, except deliveries and transportation through local jurisdiction.
 - (11) WHEREAS, the Medical Marijuana Program Act defines "primary caregiver" as an individual who is designated by a qualified patient or person with an identification card, and who has consistently assumed responsibility for the housing, health or safety of that patient or person.
 - (12) WHEREAS, the right of qualified patients and their primary caregivers under State law to cultivate Cannabis plants for medicinal purposes does not confer upon them the right to create or maintain a public nuisance.
 - (13) WHEREAS, Cannabis plants, whether grown indoors or outdoors, especially as they mature prior to harvest, may produce a distinctive odor that may be detectable far beyond property boundaries.
 - (14) WHEREAS, the strong smell of Cannabis has been deemed a nuisance and can alert persons to the location of the valuable plants, creating a risk of burglary, robbery and armed robbery.
 - (15) WHEREAS, in recent years there has been an increased number of Cannabis related incidents of burglary, robbery and armed robbery; some including acts of violence resulting in injury or death.
 - (16) WHEREAS, Cannabis that is grown indoors may require excessive use of electricity which may overload standard electrical systems creating an unreasonable risk of fire. If indoor grow lighting systems are powered by diesel generators, improper maintenance of the generators and fuel lines and the improper storage and disposal of diesel fuel and waste oil may create an unreasonable risk of fire and pollution.
 - (17) WHEREAS, the County revised the definition of legal parcel for the purpose of this Ordinance, from defining an unlimited number of contiguous parcels under common ownership or control as one parcel eligible for a single exemption, to a parcel with a distinct and separate Assessor's Parcel Number. Where contiguous legal parcels are under identical ownership by an individual or an entity, such legal parcels shall be counted as a single parcel for purposes of this Ordinance.
 - (18) WHEREAS, Trinity County's geographic and climatic conditions, low population

density, availability of resource lands previously utilized for forestry and grazing and history and reputation as a Cannabis producing region have attracted a steady influx of individuals for the purpose of participating in Cannabis activity, whether for medicinal or commercial reasons.

- (19) WHEREAS, the State Water Resources Control Board ("SWRCB"), the North Coast Regional Water Quality Control Board ("NCRWQCB") and the California Department of Fish and Wildlife ("CDFW") have documented a dramatic increase in the number of Cannabis cultivation sites, corresponding increases in impacts to water supply and water quality, including the discharge of sediments, pesticides, fertilizers, petroleum hydrocarbons, trash and human waste. These impacts result from the widespread unpermitted, unmitigated and unregulated impacts of land grading, road development, vegetation removal, timber clearance, erosion of disturbed surfaces and stream banks, stream diversion for irrigation and temporary human occupancy without proper sanitary or waste disposal facilities, and threaten the survival of endangered fish species. In addition, the actions of some Cannabis growers, either directly or through irresponsible practices, result in the killing of wildlife, including further endangering other threatened species such as the Pacific Fisher and Coho Salmon.
- (20) WHEREAS, California Regional Water Control Board, North Coast Region Order #2015-0023 (Waiver of Waste Discharge Requirements and General Water Quality Certification for Discharges of Waste Resulting from Cannabis Cultivation and Associated Activities or Operations with Similar Environmental Effects in the North Coast Region) was passed on August 13, 2015. The purpose of this order is to provide a water quality structure to prevent and/or address poor water quality conditions and adverse impacts to water resources associated with cannabis cultivation on private land.
- (21) WHEREAS, Trinity County is negatively impacted and vulnerable to numerous large-scale, trespass commercial Cannabis cultivation operations on public and private lands, yet law enforcement consistently estimates that each year they eradicate only a small fraction of these operations.
- (22) WHEREAS, effective enforcement is further hampered by conflicting local, state and federal laws which create ambiguity in determining which Cannabis cultivation operations are legal or not, and whether those that are non-compliant ought to be subject to civil or criminal enforcement.
- (23) WHEREAS, in the absence of a formal local regulatory framework, Cannabis cultivators are less likely to learn of, or implement, guidelines that are protective of the public peace, health, safety and the environment; while law enforcement has been deprived of a clear means of distinguishing legally compliant Cannabis cultivators from those who threaten the public peace, health, safety and the environment.
- (24) WHEREAS, the County finds, that in the absence of a formal regulatory framework, the negative impacts frequently associated with Cannabis cultivation are expected to increase, resulting in an unregulated, unstudied and potentially significant negative impact on the environment and upon the public peace, health and safety.
- (25) WHEREAS, the County's five primary population centers are Lewiston, Hayfork, Weaverville, Coffee Creek Volunteer Fire District and Trinity Center Community Services District, which contain more densely populated residential areas. The

reduction of grows in these areas by the absolute prohibition of cannabis cultivation in certain portions of these population centers, unless the applicant for a County license has enrolled with the SWRCB by dates specified in Section 5(a)(v), will result in: (1) greater compliance by those cultivators who have stated that they intend to abide by the environmental controls of this Ordinance; and (2) greater protection of the residents of those areas, which encompass approximately half of the total population of the County, from the nuisances caused by irresponsible cultivation of Cannabis in populated areas.

- (26) WHEREAS, the County intends to limit the number of licenses issued to larger grows in order to prevent environmental degradation and due to anticipated limitation by the State.

NOW THEREFORE be it resolved that the Board of Supervisors of the County of Trinity ordains as follows:

The County hereby amends Trinity County Code Section 17.43 as follows:
